

## 638B Passenger Boat

The 638 water taxi boats are available as a full cabin design. Very roomy for 8 passengers and cargo. The small passenger boat uses a single outboard engine. The models are very popular in the Bahamas and other tropical regions where resorts are scattered among the islands. Great for a water taxi service for patrons, hotel staff, or passengers for fare. The 638 water taxi is also popular with other near shore taxi services in St Maarten and St Kitts. These passenger water taxis are perfect for tour boats. In Mauritius our boats our passenger boats and water taxis are used to transport guests from island to the shore. In Spanish Wells, Eleuthra Bahamas our passenger boats are used by resorts for water shuttle of personnel and hotel workers from one hotel resort Island to another hotel resort Island. Affordability and quality are built into every model. Email for the best pricing and delivery terms.
