

Panga 26

Pangas have been used since 1960's, almost exclusively in Latin America and South East Asia in the early years, now all over the world, for fishing, touring, diving and commercial use including for transporting heavy loads over long distances.

Panga's unique ride is due to a pad keel which starts at the stern, 400mm wide, and tapers to the bow. It is the reason why it requires little horsepower to start and speed up. Dafman Panga 26 is CE certified with category C for the horsepower up to 250HP. However they can easily carry up to 12 persons running with as little as 90HP. Most owners will find that 140HP will provide very economical and quick boating. For higher speed you may consider to fit a 250HP to the boat. With its perfect design, it runs smoothly without jumping and bumping even in big wave and wind. The key features of the Panga 26 design is a high bow 1.50m, a length of 7.92m with a beam 2.30m, gunwale height 0.79m at the front, and 0.65m at the cockpit. The high bow and gunwale provide buoyancy and elevation for casting and retrieval or carrying heavy loads and minimizes spray coming on board. The boat is of self-draining. A bow storage is built for anchor and chain, 2 front dry fish tanks, a storage under the front console seat can be used for storing fish and fishing tackles. There are two tanks as storages at the stern. Two tanks under the seats can be used as live fish and live bait tanks with sea water circulating pump fit for them. Two sets of fishing rod racks are built on the both sides. Bow rails, navigation lights, T top and fishing rod holders are the good options for fitting to the boat.

Specification

Length	7.92mm
Width	2.30m
Depth	1.60m
Draft	0.31m
Weight	850kgs
Person	12
Engine applicable	90-250hp
Sailing area	Inshore with category C

Standards

Bow storage for anchor and chain

Center console with front seat

Driver's seat with live fish/bait tanks and 4 x fishing rod holder

Fish tank 100L x 2

Fish tank 100L

Live bait tank 80L

Price USD29,000.00 Includes Global Shipping*

Options

Cross bollard	USD70.00
Foldable ladder	USD98.00
Trailer 680 with brake and LED lights	USD2850.00

Commercial 26' below

Bow Commercial 26' PangaCraft

Anchor Locker

Bow Recreational 26' PangaCraft
U-Shaped Seating w/Storage

The difference is the commercial model has anchor locker. The Recreational has U-Shaped Seating with storage and anchor locker at the top of the bow.

The Commercail is more of a work boat with hand painted fiberglass ind-sides. The recreational has more contour shapes and molded inside that is smooth and polished
